

Are They Going 🐤 overboard With Lip Plumping?

GTL: GYM, TAN...LIP FILLER?!

NICOLE 'SNOOKI' POLIZZI, 30

The *Jersey Shore* star proudly boasted, "It's just fabulous!" the first time she got her lips done, but the experts aren't as impressed. "She has a way overfilled lower lip compared to the upper," says Philadelphia-area plastic surgeon Dr. Lyle Back.

KENDALL JENNER, 22

While her sister Kylie copped to lip fillers, the model has denied she's followed suit. But Michigan-based plastic surgeon Dr. Anthony Youn says Kendall's newly plump lips are either that "or an allergic reaction!"

TROUT POUT

Someone needs to tell these naturally pretty stars that bigger is not always better!

BRANDI GLANVILLE, 45

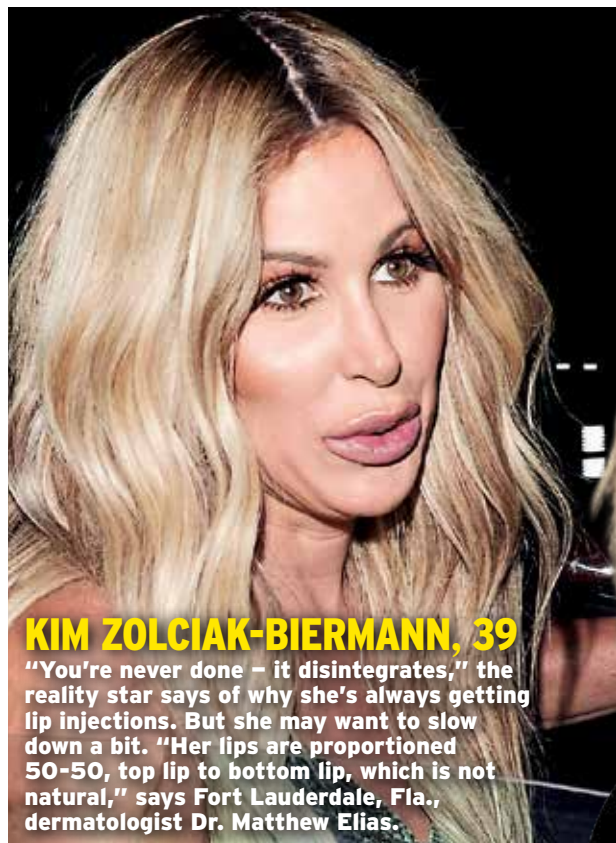

When it comes to her fillers, the *RHOBH* star says, "I've definitely made some mistakes." Dr. Back feels she tends to get her lips overdone, particularly the lower one. "It looks disproportionate," he explains.

CHRISTINA AGUILERA, 37

Fans freaked out when the singer's seemingly overfilled lips distracted from her performance at the AMAs in November, and NYC-area plastic surgeon Dr. Steve Fallek gets why they were upset. "Keep your filler in your lips, not in the soft tissue," he advises Christina.

FILLER FAUX PAS!

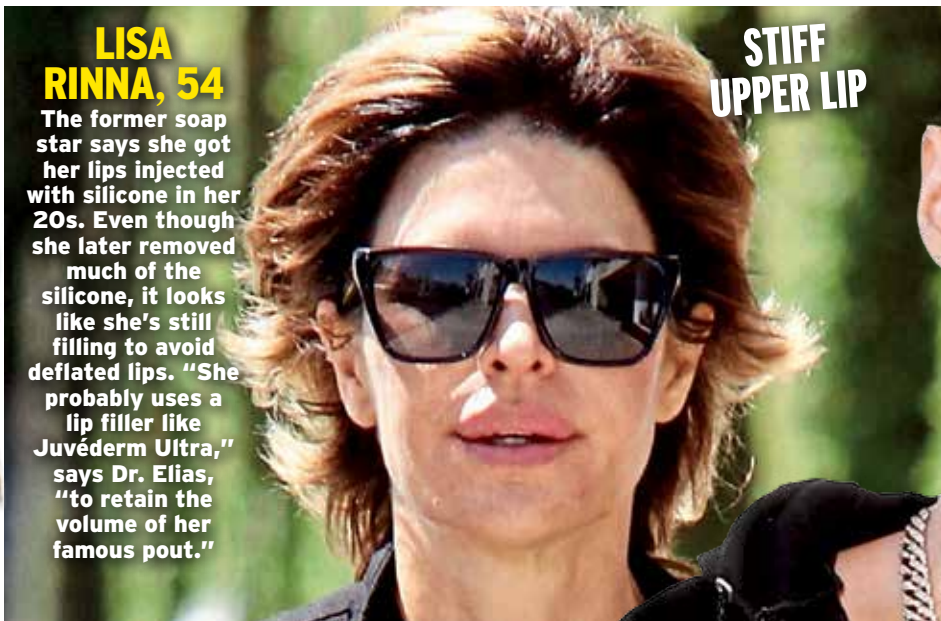

KIM ZOLCIAK-BIERMANN, 39

"You're never done - it disintegrates," the reality star says of why she's always getting lip injections. But she may want to slow down a bit. "Her lips are proportioned 50-50, top lip to bottom lip, which is not natural," says Fort Lauderdale, Fla., dermatologist Dr. Matthew Elias.

MELANIE GRIFFITH, 60

The actress has spoken openly about plastic surgery regrets, but she appears not to be done plumping her pucker. One misstep: "The lower lip had a bit too much injected toward the corners," says Dr. Back. "This creates a 'clown mouth' appearance."

LISA RINNA, 54

The former soap star says she got her lips injected with silicone in her 20s. Even though she later removed much of the silicone, it looks like she's still filling to avoid deflated lips. "She probably uses a lip filler like Juvéderm Ultra," says Dr. Elias, "to retain the volume of her famous pout."

STIFF UPPER LIP

IGGY AZALEA, 27

The Aussie rapper has admitted to a boob job and a nose job, but what about mouth fillers? Still, the docs believe she's hitting the needle: "Her cupid's bow has been flattened and has lost its shape," explains Dr. Elias.

*The experts quoted in this story have not treated these stars.
